

Traralgon College Laptop Program 2021

Revised 13/10/2020

At Traralgon College we believe a personal computer allows students to access information, enhance and extend their learning and demonstrate understanding in creative and innovative ways.

ALL students are expected to have a laptop to support their learning.

Traralgon College endeavors to support parents with securing a laptop by offering a Managed Bring Your Own Device (MBYOD) program. This program sees parents selecting a college approved laptop through the College MBYOD portal and provides for a high level of support to these devices.

The MBYOD Portal now has the option to make purchases through ZIPPAY

Alternatively, parents may opt to purchase their own device. It is imperative that any device purchased meets the College specified standards. If choosing this option, it is important to read the conditions.

Traralgon College Laptop Program 2021

Revised 13/10/2020

MBYOD (Traralgon College's preference)

The MBYOD program means parents purchase a laptop from a third-party supplier (Learning with Technologies) of college approved laptops.

Features of the MBYOD program:

- **Students gain access to the full resources of school network including the colleges ICT Department personnel to provide efficient support (technical, warranty and insurance if applicable)**
- **Laptops are purchased online at a competitive price negotiated with the provider.**
- **Each of the laptops purchased under the MBYOD program has a 3-year Onsite warranty this includes repair at home during the holidays (issue needs to be logged via <https://www.lwt.com.au/warranty.aspx>)**
- **MBYOD models will receive a connection to the college network and have the college software suite installed.**
- **Laptops will be shipped from LWT to the College, if purchased before 1/12/2020. Laptops purchased after this will be delivered to the school from 18/01/2020**

At additional cost (Recommended): Parents have the option to purchase a 3-year insurance policy which covers accidental damage, accidental loss and theft (In the event of a repair or replacement is required, the policy has a \$100 excess charge). The payment of the excess and other cost incurred is the responsibility of the device owner. **This option is selected by default**

Learning with Technologies will continue to be the MBOYD laptop supplier for 2021. Parents can purchase a laptop from LWT using the Traralgon College Order Portal (see link below).

The three laptops will available for purchases via the 2021 MBYOD program are (subject to change):

- **Lenovo 11e Netbook 5th Gen** (11.6" Netbook designed with robustness in mind for education use. Great for web surfing and document creation. \$800 approx. Inc Insurance)
- **Lenovo 11e Yoga 5th Gen** (11.6" Touch Notebook designed with robustness in mind for education use. Great for web surfing and document creation \$940 inc. insurance approx.)
- **Lenovo ThinkPad L13 Silver- 13.3" Non Touch** (A perfect balance between mobility and productivity, durable device with bright 13.3" screen \$1220 Inc insurance approx.)

The MBYOD portal is open and ready to receive orders right now!

Standard

Traralgon College Laptop Program 2021

Revised 13/10/2020

BYOD

The BYOD option means parents are free to purchase a device for their student **provided it meets** a college specified minimum standard.

Laptops:

Specification (minimum standard)

- Celeron n3050 (minimum).
- 4 Gig RAM.
- 64 Gig eMMC storage (minimum preferably 128 Gig).
- 11-inch Screen (minimum)
- Current Version operating system (MAC OS or Windows 10 Home or higher, Window 10 S will not work)
- Anti-Virus Software
- Battery life sufficient enough for all class use
- Wireless Integrated Card "802.11abgn", "802.11agn", "802.11ac"

IPADs / Microsoft Surface:

Specification (minimum standard)

- 10 Inch Screen
- Current Operating System IOS or Windows (Non jailbroken)
- Wireless Integrated Card "802.11abgn", "802.11agn", "802.11ac"
- Battery life sufficient for all class use

Android /Linux / Unix devices will not be supported; this includes Samsung Tablets and Google Chrome devices (these will not be connected to the network)

Please note:

- Students with BYOD devices that meet the specification will have access to the college network.
- Students with BYOD devices will **NOT** have the college software image installed. The Traralgon College ICT Department will, assist with connection issues to the network and internet and department systems; however, support will be limited to these systems as per DET guidelines and policy.
- Parents will be responsible for resolving all warranty, non-school related software, damage, and loss or theft issues. ICT staff are unable to assist with such problems.
- **The purchase of insurance is entirely at the discretion of parents (accidental damage, accidental loss, or theft). Parents are responsible for the entire cost of any repair or replacement of a BYOD device purchased without insurance.**
- **Traralgon College will not take responsibility for lost or damaged BYOD devices.**

Traralgon College Laptop Program 2021

Revised 13/10/2020

In 2021 the college will continue to offer a financial hardship program to support families who meet specific criteria with the purchase of laptops; however, we believe the low price of an acceptable BYOD device should reduce the demand in this area.

To make a confidential inquiry about a laptop Hardship Application, please make an appointment with the Business or ICT Manager.

Please note:

- **Available MBYOD models may change model and price without notice during the school year.**
- Finance options available on the MBYOD portal are private agreements between parents and the providers. Please ensure you understand all aspects of the agreement
- Before committing. For 2021 Learning with Technologies is offering finance through Latitude Financial Services and ZIP
- Purchasing of Insurance is highly recommended, any repairs outside of insurance is the responsibility of the device owner. Some damage repairs can incur costs higher than the purchase price of the devices.
- BYOD Devices that do not meet the specified standards will not be connected to the Colleges' network
